The UCSF Faculty Wives Association presented a check for $16,000 to Vice Chancellor David Ramsay for the Faculty Wives Student Loan Fund at their annual luncheon. Established in 1970, the fund now exceeds $125,000 and is one of the largest nonfederal sources in the student financial aid program. It helps needy students in UCSF's four professional schools and the Graduate Division.

MOVES

The administrative offices for the Department of Nursing have moved from M 185 to L 171. The telephone number 2252 remains the same. Anne Politeo, assistant director for quality assurance and community nursing, and Karen Jollife, systems coordinator, also have relocated from their units to L 171 and can be reached at the above telephone number. Nursing director Helen Ripple and associate director Marilyn Flood remain in the Hospital Administration Suite, M 185, at x3162 and x1848, respectively.

The 1985 graduating class of the School of Pharmacy awarded its top honor, the Bowl of Hygeia, to William T. Guss, PharmD, during commencement, June 22.

Established by the class of 1966 and funded by the UCSF Pharmacy Alumni Association, the Bowl of Hygeia is awarded to the senior student who, in the estimation of instructors and classmates, best demonstrates the qualities of an ideal pharmacist in action, thought and attitude.

Guss, a native of Northridge, California, graduated from UCLA in 1981. He was president of the student body in his third year at the School of Pharmacy.

Runners-up for the award were Peter Ogawa, PharmD; Devin Rodondi, PharmD; and Sharon Youmans, PharmD.

Ogawa attended King's River Community College in Reedley, CA. He is a member of the UCSF Rho Chi National Pharmacy Honor Society and he received the Dean's Award for Academic Excellence.

Rodondi, from South San Francisco, graduated from San Francisco State University in 1981. He was active in the UCSF Admissions Committee for two years and was president of the Rho Chi National Pharmacy Honor Society in 1984-85.

Youmans, from Los Angeles, attended the University of Southern California. She was president of the School of Pharmacy senior class and also served on the UCSF Admissions Committee.

Lori Good received the Francis A. Sooy Chancellor's Cup as the outstanding graduating UCSF dental school student at this year's School of Dentistry commencement, Sunday, June 16.

The third recipient of this annual award, she was selected by a vote of faculty and classmates.

At the School of Dentistry's annual precommencement awards ceremony in May, Good received the Milton F. and Mary Gabbs Award—the oldest and for many years the most prestigious award—presented to a fourth-year dental student who has displayed both high intellectual achievement and moral character befitting the profession. She also was awarded the American Academy of Oral Medicine Award for displaying outstanding performance in the field of oral medicine, the Alpha Omega Fraternity Award to the student who has attained the highest scholastic average over four years of study and the Oral Pathology Award for showing the most interest and accomplishment in the field of oral pathology.

Good, from Tarzana, California, graduated from William Howard Taft High School and received her BA in general biology from UC-San Diego in 1981.

The City will begin repaving Parnassus Avenue and Judah Street on Saturday, July 20, from 9th Avenue to Clayton Street. The project is scheduled to be completed no later than August 30. In order to minimize the traffic problems on our campus, Parnassus and Judah will be repaved between 5th Avenue and Willard Street only on the weekends of July 27 and 28 and August 3 and 4. All other areas of Parnassus and Judah will be repaved during the weekdays, 7:30 a.m. to 4:30 p.m.

The campus community is urged to avoid Parnassus Avenue during this time period because it will be extremely congested. One lane will be open at all times for emergency traffic.

The Millberry Union parking garage entrance on Parnassus will remain open with short delays expected. For further information call the Campus Planning Office at x2911.

Vol. 11 No. 12, June 29-July 19, 1985

SCREENING JULY/AUG SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Since the screening program began several weeks ago, 450 patients have had mammograms at the mobile van. Of these, five were found to have otherwise unsuspected breast cancer, and four of these tumors were not detectable by hand examination, even with the aid of x-rays to locate them. Clearly the screening program is finding early breast cancer well before it would be recognized by any other means.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes, and costs only $30. To make an appointment call x4158 between noon and 3:30 p.m.

The van will be at the following locations during July and August:

- July 1-5: Near Safeway on Taraval between 17th & 18th Ave.
- July 8-12: Near Safeway on Columbus at intersection of Taylor & Chestnut.
- July 15-19: At the Civic Center on McAllister between Larkin & Polk.
- July 22-26: Near the Lick Supermarket on 7th Ave. between Clement & Geary.
- July 29-Aug. 2: At Embarcadero Center on Drumm St. between Clay & Sacramento.
- Aug. 5-9: In the parking lot of the former Fireman's Fund Building at 3333 California St. near Laurel shopping center.
- Aug. 12-16: UCSF, Parnassus Ave.
- Aug. 19-23: Marina Blvd. near yacht basin, foot of Scott St.
- Aug. 26-30: Near YMCA on 18th Ave. between Geary & Clement.

NEWS BRIEFS

A new three-bed UCSF Bone Marrow Transplant Unit (BMTU), for treating children who need bone marrow transplantation as therapy for cancer or genetic and immune system disorders, opened in late May. The new unit is connected with the seven-bed Pediatric Intensive Care Unit (PICU), now located in newly renovated space occupying all of 6-North Moffitt as part of the UCSF Children's Medical Center.

All nursing care in the bone marrow unit will be provided by PICU nurses who, in addition to their critical care skills, also have training in bone marrow transplant procedures. According to Morton J. Cowan, MD, director, this is a unique feature of the unit which will mean maximum continuity of care for these patients and their families. Linda Zislin, RN, is the clinical nurse specialist.

The UCSF unit will oversee three types of bone marrow transplants: matched, in which donor and recipient are genetically similar; partially mismatched, in which there is some genetic similarity and in which bone marrow from the donor—usually a parent—must be specially treated to reduce severe reactions; and autologous, in which the patient donates his or her own bone marrow during the early stages of the disease or during remission and then receives it back when needed. UCSF is the only medical center in the Bay Area performing the mismatched and autologous bone marrow procedures.

Other features of the new unit are a special air-filtered system to reduce bacteria and the chance of patient infections, a sophisticated water purification system and a meal-preparation area specially designed to minimize impurities in food.

Approximately 130 Bay Area atomic bomb survivors were examined at UCSF by a team of Japanese physicians June 14-16. Examinations also will be held in Los Angeles, Seattle, Honolulu and Vancouver.

An estimated 1000 Americans of Japanese and Korean ancestry now living in the US are Hibakusha or survivors of the two atomic bombs. Since 1977 the Japanese government has financed and sponsored US medical visits in which an increasing number of Hibakusha have participated.

The medical visit was cosponsored by the Hiroshima Medical Association with volunteer support of the Friends of Hibakusha, Committee of Atomic Bomb Survivors in the USA, Bay Area Asians for Nuclear Responsibility, UCSF Alliance for Nuclear Responsibility and various churches and other organizations in the Bay Area.

Beginning July 1, there will be a number of parking changes on campus:

- The parking lot on Medical Center Way and Parnassus Ave. will be changed from an A, C and G permit holder lot to a special permit parking area. New signs will be posted in the lot to reflect this change.
- Motorcycles will need a permit to park in the motorcycle parking spaces at Third and Parnassus Ave., in the new area on the Millberry Union garage E Level and at 3333 California Street. These permits will cost $8.75 per month and may be paid through payroll deductions or by cash or check. If you pay by cash or check the annual fee must be paid in advance.

Permit applications are available at the Parking Office on the H Level of the Millberry Union garage, Monday through Friday between 7:30 a.m. and 5 p.m.

The San Francisco chapter of the American Heart Association now is distributing a new multilingual preschool curriculum designed to teach children about their hearts, how they function and how good eating and exercise habits can keep them healthy.

Developed by UCSF clinical pharmacist Linda Bernstein, the curriculum includes a teacher's guide, a series of 15 fun-to-do worksheets and a 15-minute musical videotape which urges children ages three to five years to become members of "the Lub Dub Club" and develop and maintain a healthy lifestyle. Bernstein developed the written curriculum with Meryl Glass, director of the UCSF Child Care/Study Center, and June Drake, RN, public health nurse with the SF Unified School District. It is illustrated by Arthur Berger of SF State University.

A free complimentary copy of the 95-page curriculum is available in English, Spanish or Chinese to San Francisco preschools. The video can be borrowed at no charge, either on ½-inch videotape or as a 16mm film. The videotape can be purchased for $20; additional curriculums are available at $12 each. For further information contact the American Heart Association, SF Chapter, 421 Powell Street, SF, CA 94102 or call 433-2273.
